In this section I will be asking you some questions about your views on separation. I will be referring to 'non-resident parents', which means separated parents whose children do not live with them for the majority of the time.

When parents separate, the non-resident parent often makes regular payments towards the upkeep of his or her children. This is called child maintenance. Using this card, how many separated parents do you think manage to come to an agreement about the child maintenance arrangements for their children?

1.7 All separated parents

The last question asked you to decide whether cultural things, like countryside, music and sport, or political issues like how (England/Scotland/Wales) runs its affairs, are more important to being (English/Scottish/Welsh).

How important to you are, first, these cultural things?
(IF NECESSARY - this includes things like a country's countryside and music, sporting teams, language and literature).

And how important to you are these political issues?
(IF NECESSARY - this includes things like how the country is governed, its Assembly or Parliament and how it runs its affairs.

45. You may have heard of genetically modified or ‘GM’ foods. These are made from plants which have had their genes altered. Some people say that growing these plants may damage other plants and wildlife and that food made from them may not be safe to eat. Other people say that growing these plants may mean lower food prices and less use of pesticides and weedkillers.

Please say how much you agree or disagree with each of these statements about genetically modified (GM) foods.
