(Name) is a (white/Pakistani) (man/woman). For the last few weeks (Name) has been feeling really down. (He/She) wakes up in the morning with a sad mood and heavy feeling that stick with (him/her) all day long. (He/She) isn't enjoying things the way (he/she) normally would. In fact nothing seems to give (him/her) pleasure. Even when good things happen, they don't seem to make (Name) happy. The smallest tasks are difficult to accomplish. (He/She) finds it hard to concentrate on anything. (He/She) feels out of energy, out of steam and cannot do things (he/she) usually does. And even though (Name) feels tired, when night comes (he/she) can't go to sleep. (Name) feels pretty worthless, very discouraged, and guilty. (Name)'s family has noticed that (he/she) has lost appetite and weight. (He/She) has pulled away from them and just doesn't feel like talking.

(Names) is a (white/Pakistani) (man/woman). Up until a year ago, life was pretty okay for (Name). But then, things started to change. (He/She) thought that people around (him/her) were making disapproving comments, and talking behind (his/her) back. (Name) was convinced that people were spying on (him/her) and that they could hear what (he/she) was thinking. (Name) lost (his/her) drive to participate in (his/her) usual work and family activities and retreated to (his/her) home, eventually spending most of (his/her) time on (his/her) own. (Name) became so preoccupied with what (he/she) was thinking that (he/she) skipped meals and stopped washing regularly. At night, when everyone else was sleeping, (he/she) was walking back and forth at home. (Name) was hearing voices even though no one else was around. These voices told (him/her) what to do and what to think. (He/She) has been living this way for six months.

(Names) is a (white/Pakistani) (man/woman). (Name) has a history of breathing problems. (Name) often has bouts of coughing at night, and doesn't sleep very well. (His/Her) family and friends have noticed that these problems seem to be particularly bad during challenging situations, in the spring and autumn, and during strenuous activities. (Name) used to enjoy playing (football/tennis) but recently gave it up because of these problems. (Name) feels badly about (his/her) breathing problems, which seem to be getting worse, and wishes (he/she) could 'be just like everyone else.' (Name) is involved in several activities and hobbies, and shares these activities with several friends.
